MÖBIUS opens new office in the Netherlands

Sint-Martens-Latem, 28 February 2008 – MÖBIUS inaugurated its brand new office in Montfoort, the Netherlands in the beginning of February this year. With the opening of a new office in the region of Utrecht, MÖBIUS has taken a new step towards a strong international presence.

The originally Belgian-based consultancy bureau MÖBIUS is specialised in Business Process Management and Supply Chain Management. Having found an appropriate location for expanding activities in the Netherlands, the first employees have recently been recruited.

Wessel-Jan Fijnvandraat has been appointed Director of the Dutch division. Fijnvandraat has extensive experience as a customer contact advisor and business consultant. In recent years he has mainly worked in improving customer contact services, the establishment of multi-channel strategies, optimizing new customer contact channels and increasing operational efficiency. In addition, he has also supervised several large-scale organizations in the financial services, energy and telecom sectors. Wessel-Jan is accustomed to taking a fresh look at organizations and his advice is more often that not 'a step further than the obvious'.

Hendrik Vanmaele, CEO MÖBIUS group: "The increasing demand for the characteristically MÖBIUS approach in several organisations in the Netherlands lead us to the decision to give our international expansion additional impetus in the form of a new office in the Netherlands. With his knowledge and experience, Wessel-Jan is the right person to place MÖBIUS even more firmly on the map in the Netherlands."

Janis Goede has been recruited as Office Manager. Janis studied at the Maastricht School of Translation and has acquired experience since her graduation in the translation world. She was given the opportunity to come and work for MÖBIUS at the end of last year and has embraced the challenge with both arms.

This, however, is just the beginning of the growth of MÖBIUS Netherlands. In the framework of expanding our service offering, more employees will be recruited throughout the year.
